## EXPERIENCE

### Google Summer of Code Intern

#### GNOME Foundation

Apr 2019 - present

- Redesigning and developing the GTK's official website.
- Using Jekyll as Content Management System for easy update of the website.
- Using Bootstrap and jQuery for designing Front End.
- Using Gitlab CI for the deployment purposes.

### Technical and Web Head

#### CESS Organisation at Guru Nanak Dev University

May 2016 - Apr 2019

- Served as Technical and Web Head from Apr 2018 - Apr 2019.
- Organised Hack Zero to One Hackathon.
- Organised Polaris Tech Fest 2019.
- Conducted workshops for Web Designing.
- Handled website projects for the different events.

## EDUCATIONAL HISTORY

### Guru Nanak Dev University

#### B. Tech in Computer Science and Engineering.

- July 2016 to July 2020

### Manav Public School

Non-Medical with 92.6%.

- Apr 2014 to Apr 2016

## PROJECTS

### My Github Network

A PHP/JS app to generate a network graph of your Github network.

- Learned about the working of Github APIs
- Learned about the D3.js, a JavaScript library for manipulating documents based on data
- Learned about DevOps by deploying the app on Heroku.

### UrLane App

An Image Analysis AI made in Python to regulate the traffic at toll booths.

- Created at Hack Zero To One Hackathon 2018.
- Learned about Python libraries such as OpenCV for Image Analysis and Tkinter for creating GUI.

## INTERESTS AND HOBBIES

I contribute to Open Source projects on weekends.

I run a YouTube Music channel where I upload my music beats and remixes of popular songs.

I travel as well to learn about new cultures around the world.
