EXPERIENCE

Full Stack Developer and Founder — *RavSam*

MAY 2020 - PRESENT

- Running a one-man Full Stack Development agency and served 5 clients in the first year of launch.
- Providing services like Websites, APIs, Mobile Apps, Automation, and DevOps.
- Providing Custom Software Development and Consultancy in Jamstack technologies to CloudAnswers.
- Created a Web and Flutter app for Organic Farmers Connect which made the headlines in local newspapers.

Technical Content Writer — *Freelance, Remote*

MAY 2020 - PRESENT

- Working on a Contract basis with Draft.dev and Honeybadger to create content related to Jamstack and Python development.
- Working with ATA team to write SEO optimized content related to Linux and Automation.
- Doing guest writing for CSS Tricks, Vonage, Twilio and showcasing the integration of their platforms with other tools and frameworks.
- Told by an editor, "You wrote so well, I'm tempted to use it on my own machine".

Full Stack Developer Intern — *Techies Infotech, Amritsar*

JANUARY 2020 - MAY 2020

- Designed websites based on Jamstack architecture which reduced the build times by 30%.
- Architected Laravel websites for better code structure which decreased the feature development time by 20%.
- Lead a team of 4 interns in their assignments as an Intern Team Lead.

Google Summer of Code Developer — *GNOME Foundation, Remote*

FEBRUARY 2019 - AUGUST 2019

- Redesigned the GTK's official website using Bootstrap for better and accessible UI.
- Implemented a Git-based CMS and Static Site Generation using Jekyll for non-technical contributors.
- Setup deployment of the website using Gitlab CI/CD to make the new changes live in under one minute.

EDUCATION

B. Tech CSE — *Guru Nanak Dev University, Amritsar (8.17/10.00 CGPA)*

AUGUST 2016 - JULY 2020

- Served as the Technical Head of the Computer Engineering Student Society.
- Co-organized Polaris Tech Fest 2019 and various workshops related to Web Development and Open Source.
